

**REMARKS**

The title of the application is amended herein. Applicants note that the Notice of Allowance incorrectly titles the invention as "NOVEL SURFACTANTS AND FORMULATIONS." The instant amendment is intended to supplement requests to amend the title of the invention to "POTASSIUM GLYPHOSATE FORMULATIONS" made in a Request for Correction of Filing Receipt mailed June 23, 2003 (entered into PAIR by the USPTO on July 1, 2003), a Second Request for Correction of Filing Receipt mailed February 25, 2004 (entered into PAIR by the USPTO on March 1, 2004) and the response to the April 22, 2004 Office action mailed September 21, 2004 (entered into PAIR by the USPTO on September 21, 2004).

In addition to amending the title, applicants respectfully request an initialed copy of the Supplemental IDS submitted on July 23, 2003 (entered into PAIR by the USPTO on July 23, 2003) and the Supplemental IDS submitted on May 12, 2004 (entered into PAIR by the USPTO on May 12, 2004). Initialed copies of those IDS forms were not provided to applicants and are not available on PAIR.

Consequently, applicants respectfully request that the application be amended to reflect all of the references submitted on Forms PTO/SB/08A dated July 23, 2003 and May 12, 2004. Further, after any necessary review, applicants request that copies of both IDS forms with all references initialed and all pages signed be forwarded to applicants.

Inasmuch as the above amendment is of an editorial nature, designed to improve the form of the application, entry under the provisions of Rule 1.312 is requested.

Respectfully submitted,

James D. Harper, Reg. No. 51,781
